APPLICANTS: WERNER JACOB- 2 (PCT)

SERIAL NO.: 10/524,391 FILED: FEBRUARY 14, 2005

INT'L.APPLN.NO.: PCT/EP03/07386 INT'L.FILING DATE: JULY 9, 2003

FOR: LONGITUDINAL SHAFT

SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

MAIL STOP PCT
Hon. Commissioner of Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

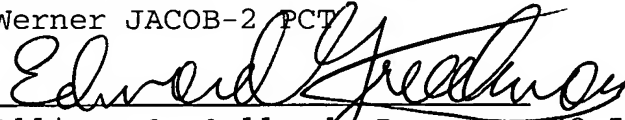

Supplemental to the Information Disclosure Statement filed on February 14, 2005, Applicant is enclosing Form PTO-1449 and copies of the references which have been cited in the German priority application. Regarding the prior art, most of these documents refer to shafts which are connected to a gearbox or the like via an adapter piece. For example, these adapter pieces are denominated with reference numerals 6, 7 in DE 38 28 018 A1 or reference numeral 18 in US 3,714,797. The same is true for JP 10-169635 A and the extract of the book "Kunststoffe im Automobilbau - Integration nach Maß". In contrast to that the longitudinal shaft according to the present invention is connected and centered directly on journals of a gearbox output shaft and a differential input shaft via the plug-in connection of the central bore of each of the two outer articulations.

Further, JP 10-169666A refers to a side shaft instead of a longitudinal shaft.

DE 102 15 657 A1 was published only after the priority date of the present case. This document should not be relevant for the present U.S. application.

It is respectfully requested that the foregoing Supplemental Information Disclosure Statement (IDS) be incorporated into the official file of the present patent application. Because this Supplemental IDS is being filed before a first Office Action on the merits, it is believed that no fee is required. However, if a fee should be required for this IDS, the Commissioner of Patents and Trademarks is hereby authorized to charge any required fee, or to credit any overpayment to Deposit Account No. 03-2468.

Respectfully submitted,
Werner JACOB-2 PCT
